SPONSORSHIP PROSPECTUS

EMERGING CONTAMINANTS WORKSHOP

21-22 November 2024
James Cook University, Townsville

ABOUT THE EVENT

Contaminants of emerging concern are an increasing issue for the urban water sector as community and regulatory expectations increase and the ability to detect trace chemicals improves.

Water utilities are developing strategies to reduce the risk that contaminants of concern pose which range all the way from understanding their risk exposure through testing of influent, effluent and waste streams, to improved management approaches to contaminants, all the way to assessment of treatment options such as advanced thermal treatment. This event is expected to bring together 60-80 urban water professionals from across Queensland to share knowledge, expertise and forge connections within the urban water sector.
