

Trades

Do you?

- Enjoy practical and manual work
- Want a hands on approach to work
- Like to be action orientated

Then a role in Trades in the water industry could be for you!

There are opportunities in all areas of the Queensland Water Industry for those that want to work in trades, especially if you are interested in working in a regional location.

Trades are an essential part of the industry as they are responsible for ensuring the efficiency and health and safety of the systems used in the water industry.

Roles span across a variety of activities in the Queensland Water Industry. These include electricians, plumbers, fitters and welders.

Benefits of working in the water industry include the chance to do something worthwhile for your community, working on a wide range of interesting projects, a flexible workplace that supports your work/life balance and the opportunity to be part of a secure workforce where you can find jobs anywhere in the world!
