

Careers in Water – Factsheet no. 3

Treatment operations

Do you?

- Like Mathematics and Science
- Enjoy roles with a high level of responsibility
- Want a role that benefits your local community

Then a role in Treatment Operations in the water industry could be for you!

There are lots of opportunities in the Queensland Water Industry for Treatment Plant Operators, especially if you are interested in working in a regional location.

You could work in any number of different Water or Sewage Treatment Plants in the Water Industry, some of which are highly technologically advanced.

As a Water Treatment Plant Operator you would be responsible for ensuring a safe and reliable drinking water supply to your community. Or you might work in a Sewage Treatment Plant and be responsible for ensuring that the sewage is treated to an environmentally acceptable level before discharge.

Benefits of working in the water industry include the chance to do something worthwhile for your community, working on a wide range of interesting projects, a flexible workplace that supports your work/life balance and the opportunity to be part of a secure workforce where you can find jobs anywhere in the world
