

# Field Services

## Do you?

- **Enjoy practical and manual work**
- **Have an interest in how things work**
- **Like to work as part of a team**

**Then a role in Field Services in the water industry could be for you!**

There are opportunities in all areas of the Queensland Water Industry for those that want to work in field services, especially if you are interested in working in a regional location.

Field services are an essential part of the industry as they are responsible for the construction and ongoing repair and maintenance of sewerage systems and water supply networks.

You would be responsible for the efficient and effective delivery water supply and/or sewage collection services for the community.

Benefits of working in the water industry include the chance to do something worthwhile for your community, working on a wide range of interesting projects, a flexible workplace that supports your work/life balance and the opportunity to be part of a secure workforce where you can find jobs anywhere in the world!
